

# The Sun

Entered at the Post Office at Gainesville, Fla., as second-class mail matter.

H. H. McCREARY, Editor and Publisher.

JESSE L. BURTZ, City Editor.

OFFICE: PORTER BLOCK.  
205 W. MAIN STREET, S. TELEPHONE 434

THE DAILY SUN published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$2.50 six months; \$1.25 three months; or 50 cents for five weeks, strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.  
Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, state and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address: THE DAILY SUN, GAINESVILLE, FLA.

Uncle Tom Neidringhaus is fortunate in one respect—that name of his is too much for the poets.

The Czar seemed a little surprised that he could not feed his subjects on "proclamations and fudge."

Tom Lawson says designs are being had on his life by Wall street. The latter thinks all he needs is a little more rope.

Oklahoma and Indian Territory will have to send Arizona a consolation prize for having "gotten left" in the Statehood bill.

The dull monotony of Congress has been broken again by Mr. Baker of New York. Mr. Baker supplies the exclamation points.

That scientist who thinks he can extract gold from the sea must have gotten that idea from the big grafts in the canal business around the country.

Chicago has hinted to Mrs. Chadwick to leave Cleveland and come there and start a bank; but we believe it is to have her meet Johan Hoch.

The superintendent of the Texas penitentiary is trying to elevate the inmates by reading poetry to them. Why this is enough to drive them to drink.

Mississippi and Alabama should invite over a few more boll weevils to regulate their annual output of cotton. This is much more effective than swearing off from raising it.

Senator Bacon of Georgia has called attention to the fact that while several Senators have been indicted none of them are Democrats. The grafters are all in the Republican party somehow or other.

A Russian reception was held at Tallahassee on Tuesday. The notice does not say who held the reception, but we suppose it was the Japs, as they have been holding some warm Russian receptions during the past year.

All of the cabinet officers will resign so they can be appointed again. Some of the officials who are taking a course in some of the correctional institutions of the country will continue their studies until after inauguration day.

Texas and Ohio are proposing to build refineries for their own oil. They had better speak easy when they make such threats against the Standard Oil or the first thing they know Mr. Rockefeller will be doing things to 'em.

Some of the Republican Congressmen from Indiana and Illinois are trying to explain that their position on the tariff has been "misunderstood." When a Congressman uses the word "misunderstood" he is usually trying to hedge both ways.

Criticism has been heard of Mr. Bryan for approving and congratulating Mr. Roosevelt in his efforts to regulate railway rates. Why bless you honey, this is good old Democratic doctrine and the first bill on the subject was introduced by John H. Reagan of old Texas, the very Gibraltar State of Democracy.

## BAD WEATHER.

For the enlightenment of our readers who have been somewhat discouraged regarding the weather we have experienced, we publish a portion of a letter The Sun received a few days ago from R. E. Letson, a former citizen of Micanopy, but now residing in Newbern, N. C., which gives a chilling account of what he is experiencing:

"Editor Sun: Dear Sir—I can't do without The Sun. It has a place in my home as long as I, or the paper, live. We are having bad weather here now. The sun came out twice in two weeks. One day we have a freeze, the next sleet, the next snow, and the next rain. The temperature got up to 58 in the past month and got as low as seven at one time, but hangs around 26 in the daytime, and 18 at night. It has snowed for 25 hours, but not hard, although it left 10 inches of snow on the ground.

"Raking snow off the lettuce was the order of the day last Sunday. Wading around in the snow and cold put me in bed three days the past week. It is a little too much for a Florida Cracker.

"The lettuce is looking fine. Of course there is outdoors lettuce here. Cabbage are not hurt. Ants are killed and the ground has not thawed in six weeks, only in very warm places. There is lots of sickness here now—mostly the grippe. So far this has been the worst winter for 20 years—the old settlers say.

"Long live The Sun and its editor."

## FRIGHTFUL STREETS.

The recent rains have put the principal streets of our city in a frightful condition, and the mud has been a disgrace to the looks and comfort of our fair city. The water has stood in the gutters along Union street, opposite the court house, until it has become thoroughly mixed with the clay, presenting a sickening sight and causing much comment from the many strangers at present stopping here.

Dirt has been hauled on many of the streets and then taken away, the only effect apparent being a depletion of the funds for highway improvements. No benefit can be done until the work is performed in a proper manner, the gutters put in shape and surplus water carried off.

The only way is to do properly the work that can be done with the means at hand. The streets can be put in shape to stand heavy traffic for many years, and even if only a small portion is done each year, let it be done in a way that will make it a credit to the city.

With good streets and sidewalks Gainesville would be one of the handsomest cities in the South, and it is hoped that these suggestions will be taken in the spirit in which they are given—for the best interests of our city.

Machen, Lorenz, and the Groff Brothers, convicted of bribery in the Postoffice Department, are at Moundsville, W. Va., penitentiary at last. The other government grafters will take a hint at this and do their work a little "more quietly."

John L. Sullivan says if he had one million he would do big things for humanity. It would have been more accurate for him to have said that he would use it to "quench their thirst."

Fifteen officers of the German army are at present studying Japanese in the Berlin Seminary for Oriental Languages.

The awarding of the armor plate contract has shown that Secretary Morton still has his habits.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by all druggists, 75 cts. Take Hall's Family Pills for constipation.

"Uncle" Jo Cannon refused to take dinner at the White House last week because Chief Justice Harlan would precede him and have had the honor of taking Mrs. Roosevelt in to dinner. We have all seen these transformations in our Statesman. Men coming sockless to Congress return to their astonished communities wearing patent leather shoes and white spats. A Senator without a dinner coat, after a few years in Washington, may be seen coming home at 5 o'clock in the morning in their dress suits. A Statesman appearing at cabinet receptions in high hat and tan shoes may be met in Europe the following year traveling with a valet. There was a time within the memory of man when "Uncle Jo" considered a necktie a superfluity, and a clean shirt and a vest all the dinner costume that the most fastidious could desire. But all this is changed. He is Speaker of the House and he will take Mrs. Roosevelt in to dinner or he will dine somewhere else. He is going to have an automobile and will probably wear a dog skin coat and goggles, and the new member who has grown far sighted trying to catch the Speaker's eye will have a harder time than ever. Uncle Jo has emerged from his cocoon. Hereafter he will be the butterfly of fashion.

## Big Revivals In Kansas City.

Kansas City, Feb. 15.—Reviewing the two weeks' interdenominational revival, which just closed, the Rev. J. P. Calhoun, of Pittsburg, director of the campaign, estimated that 6,000 converts had been made. An average of about 430 prayer meetings were held daily, making the total number 6,009, besides 1,000 revival services. The total attendance was estimated at 500,000.

## APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain, as long as possible, one's youthful appearance.

It is impossible to do this without retaining a luxuriant growth of hair.

The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use.

Herpicide makes an elegant hair dressing as well as Dandruff cure.

Accept no substitute—there is none. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
